THE TOTAL SYSTEMS INTEGRATOR

deal for a wide range of OEMs, Bomac's Specialty Products group supplies all the key components to complete your company's specific control system offerings. When you need high volumes with lower pricing, or custom solutions, look into the many auxiliary component options that Bomac Specialty Products can provide. Our staff can assist you in meeting your production requirements, significantly reducing the need to adjust your workforce during peak and off peak demands.

Common examples include:

- Machine Control Panels
- Process Control Panels
- Motor Control Panels
- Instrumentation Panels
- Machine Lubricators
- Fugitive Emission Panels

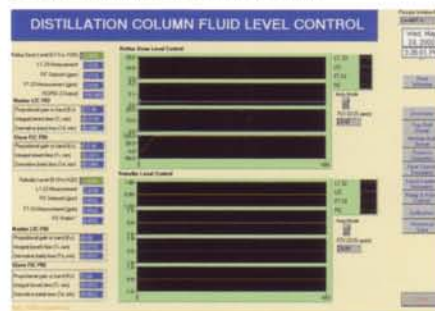

Machine Lubricators
